

Rajiv Gandhi University of Health Sciences

M.B.B.S. PHASE - II Degree Examination - January 2008

6

Time : 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE (Revised Scheme)

QP Code: 1062

Your answers should be specific to the questions asked.

Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 9 = 18 Marks

1. What are the legal duties of a doctor while treating a case of suspected poisoning? Discuss general principles of treatment of acute poisoning
2. Enumerate immediate signs of death. Discuss changes occurring in the muscles after death

SHORT ESSAY

10 X 5 = 50 Marks

3. Magistrate inquest
4. MC Naughten's rule
5. Cross Examination
6. Causes of impotence and sterility in the female
7. Immediate restraint of mentally ill person
8. Types of fractures of skull
9. Informed consent
10. Sign of recent delivery in the living
11. Primary impact injury
12. Euthanasia

SHORT ANSWERS

16 X 2 = 32 Marks

13. Difference in penetrating and perforating injuries. Give examples
14. Abortion stick
15. Bestiality
16. Malingering
17. Maceration
18. Atavism
19. Voyeurism
20. Paradox gun
21. Causes of death in hanging
22. Dying deposition
23. Suspended animation
24. Lust murder
25. Lip prints
26. CONDUCT MONEY
27. Botulism
28. Bansdola

1087_2008_1_S41

Rajiv Gandhi University of Health Sciences, Karnataka

M.B.B.S. PHASE - II Degree Examination - January 2008

Time: 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE - PAPER I (Revised Scheme II)

QP Code: 1087

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 10 = 20 Marks

1. Classify firearms. Draw a neat labeled diagram of the appearance of the entry wound caused by rifled firearm fired from a distance of 8 cms. Describe the purpose and medicolegal importance of rifling
2. Classify the poisons belonging to the 'Irritant' group with one example each. Describe the first aid measures and the hospital management of cobra bite

SHORT ESSAY

10 X 5 = 50 Marks

1. Contributory negligence
4. Plant penicillin
5. Mc Naughten's rule
6. Cephalic index
7. External features of antemortem wet drowning
8. Rigor mortis
9. Malingering
10. Summons
11. Macerated foetus
12. Findings in a habitual passive agent

SHORT ANSWERS

10 X 3 = 30 Marks

13. Universal antidote
14. Dowry death
15. Illusion
16. CARBOL UREA
17. Locard's principle of exchange
18. Professional secrecy
19. Battered baby syndrome
20. Viability
21. Leading questions
22. Molecular death

Time: 3 Hours

[Max. Marks: 90]

FORENSIC MEDICINE (Old Scheme)**QP Code: 1009**

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY**2 X 10 = 20 Marks**

1. Classify Mechanical injuries. Explain the Medico-legal aspects of Abrasions
2. Describe the mechanism of action, symptoms, signs and treatment in a case of poisoning by Strychnine

SHORT ESSAY**10 X 5 = 50 Marks**

3. Medicolegal reports
4. Warning notice
5. Doctrine of Res Ipsa Loquitur
6. Medicolegal importance of Age
7. Contact and near contact fire arm wounds
8. Differences between ante-mortem and post mortem injuries
9. Café coronary
10. Causes of impotence in male
11. Criminal responsibility of Insane person
12. Delirium Tremors

SHORT ANSWERS**10 X 2 = 20 Marks**

13. Summons
14. Product liability
15. Dichotomy
16. Cephalic index
17. Sudden death
18. Joule burn
19. Transvestism
20. Still birth
21. Automatism
22. Hippias

Rajiv Gandhi University of Health Sciences

8

Time : 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE (Revised Scheme)

QP Code: 1062

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 9 = 18 Marks

1. Mention various types of drowning. Describe post mortem findings in case of wet drowning
2. Describe in detail the characteristics of entry wound of rifled firearm injuries at varying ranges

SHORT ESSAY

10 X 5 = 50 Marks

3. Dactylography
4. Contraindications & indications of Gastric lavage
5. Lucid interval
6. Café coronary
7. Hallucinations. Mention the types
8. Phossy jaw
9. Post mortem staining and its medicolegal aspects
10. MTP act 1971
11. Mention the immediate and late causes of death due to injuries
12. Brain death

SHORT ANSWERS

16 X 2 = 32 Marks

13. Conduct money
14. Super imposition technique
15. Aims and objectives of medicolegal autopsy
16. Privileged communication
17. Surrogate mother
18. Tailing of wound
19. Universal antidote
20. MC Evan sign
21. Penal erasure
22. Vitriolage
23. Cephalic index
24. Tribadism
25. Rule of Hasse
26. Pseudocyesis
27. Tandem Bullet
28. Carboluria

Rajiv Gandhi University of Health Sciences

M.B.B.S. PHASE - II Degree Examination - July 2008

Time: 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE - PAPER II (Revised Scheme II)

QP Code: 1087

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 10 = 20 Marks

1. Enumerate the post-mortem signs useful for estimation of time since death. Describe the use of early signs of death to estimate time since death
2. Define Infanticide. Describe methods usually adopted for carrying out infanticide. Add a note on Hydrostatic test

SHORT ESSAY

10 X 5 = 50 Marks

3. Define Identity. How will you establish sex of an individual under different circumstances?
4. Define a stab wound. What features of medico-legal importance you will note down while examining a stab wound?
5. Describe the differences in the appearance of ligature mark due to hanging and strangulation
6. What are the causes of male infertility? Name the method of overcoming each cause
7. What are the provisions of MTP act 1971 and its subsequent amendments?
8. Blood groups and medicolegal importance
9. Describe the management of a case of acute cyanide poisoning
10. Describe the method of 'restraint (admission) on petition' of a mentally ill person
11. What is Res-Ipsa-Loqitur? How will you defend yourself in a situation of Res-Ipsa-Loqitur?
12. Describe the functions of Indian Medical Council

SHORT ANSWERS

10 X 3 = 30 Marks

13. Dying declaration
14. Role of Doctor as a witness in the court
15. Methods used by criminals to mutilate finger prints
16. Corpus delicti
17. Brain stem death
18. Un-natural sexual offences
19. Types of consent in medical practice
20. Feigned insanity
21. Preparations of Cannabis indica
22. Post-mortem appearance of gastro-intestinal tract following in-organic acid ingestion

9

Time: 3 Hours

[Max. Marks: 90]

FORENSIC MEDICINE (Old Scheme)

QP Code: 1009

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 10 = 20 Marks

1. Define Drowning. Mention the post mortem appearances in a case of death due to drowning
2. Describe the signs, symptoms and treatment of a case of methyl alcohol poisoning

SHORT ESSAY

10 X 5 = 50 Marks

3. Expert witness
4. Infamous conduct
5. Cadaveric spasm
6. Tattoo mark
7. Differences between contusion and post mortem staining
8. Artificial insemination
9. MTP Act 1971
10. Delusions
11. Indications & contra indication of Gastric lavage
12. Drug addiction

SHORT ANSWERS

10 X 2 = 20 Marks

13. Hostile witness
14. Vicarious responsibility
15. Adipocere
16. Imprint abrasions
17. Ricochet bullet
18. Diatoms
19. Lucid interval
20. Locard's principle of exchange
21. Vitriolage
22. Toxalbumen

Time : 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE (Revised Scheme)

QP Code: 1062

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 9 = 18 Marks

1. Classify mechanical injuries. Define contusion. How do you estimate the age of contusion?
2. Write about signs, symptoms and treatment of acute organo phosphorous poisoning

SHORT ESSAY

10 X 5 = 50 Marks

3. Hydrostatic test
4. What are the viscera preserved for chemical analysis in a case of suspected poisoning?
5. Virginitiy
6. Delusion
7. Differences between ligature mark in hanging and strangulation
8. Define sodomy. Describe the findings in habitual passive agent
9. Artificial insemination
10. Medicolegal importance of Tattoo
11. Dying declaration
12. Cephalic index

SHORT ANSWERS

16 X 2 = 32 Marks

13. Positive signs of pregnancy
14. Oath
15. Mummification
16. Primary skin incisions taken for opening dead bodies during autopsy
17. Diatoms
18. Joule burn
19. Complications in criminal abortion
20. Causes of impotency in males
21. Run amok
22. Obscure autopsy
23. Penal erasure
24. Poroscopy
25. Dicotomy
26. Spaulding's sign
27. Tandom bullet
28. Sadism

M.B.B.S. PHASE - II Degree Examination - December 2009

Time: 3 Hours

[Max. Marks: 90]

FORENSIC MEDICINE (Old Scheme)

QP Code: 1009

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 10 = 20 Marks

1. Describe the characteristics and medicolegal aspects of contusions. Mention the differences between contusions and artificial bruise
2. Write a note on the procedure to be followed for the collection, preservation and transportation of viscera for chemical analysis to the forensic science laboratory in a case of alleged death due to organophosphorus poisoning

SHORT ESSAY

10 X 5 = 50 Marks

3. Functions of state medical council
4. Contributory negligence
5. Medicolegal importance of Age 18
6. Negative autopsy
7. Sexual asphyxias
8. Positive signs of Pregnancy
9. Artificial insemination
10. Hallucination
11. Drunkenness
2. Differences between Strychnine poisoning and Tetanus

SHORT ANSWERS

10 X 2 = 20 Marks

13. Hearsay evidence
14. Professional death sentence
15. Suspended animation
16. Bite marks
17. Abrasion collar
18. False virgin
19. Atavism
20. Obsession
21. Universal antidote
22. Super Imposition Technique

12

Time: 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE (Revised Scheme II)

QP Code: 1087

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 10 = 20 Marks

1. Classify asphyxial deaths. Describe post-mortem findings in a case of drowning
2. Discuss clinical features, management, post-mortem findings and medico-legal aspects of organophosphorus compounds

SHORT ESSAY

10 X 5 = 50 Marks

3. Define dying declaration. How will you proceed if a patient under your care wishes to make dying declaration? What is its medico-legal significance?
4. Describe the mechanism and medico-legal importance of rigor mortis
5. Define contusion. Discuss medico-legal importance of contusions
6. How will you differentiate between ante-mortem and post-mortem injuries?
7. Discuss the indications and methods of performing Medical Termination of pregnancy
8. Discuss the complications of criminal abortion
9. Enumerate 'civil responsibilities' of a mentally ill person. Describe 'management of property'
10. Describe the various routes of excretion of poisons from the body. What methods can be adopted to enhance excretion of poisons?
11. Define and discuss infamous conduct on the part of a medical practitioner, with examples
12. Define and classify medical negligence. Add a note on respondent superior

SHORT ANSWERS

10 X 3 = 30 Marks

13. Cross examination
14. Anthropometry
15. Cadaveric spasm
16. Adipocere
17. Conduct money
18. Super imposition techniques
19. Blood group systems
20. Privileged communications
21. Summons
22. Delirium tremens

M.B.B.S. PHASE - II Degree Examination - June/July 2009

13

Time: 3 Hrs.

[Max. Marks: 100]

FORENSIC MEDICINE (Revised Scheme II)

QP Code: 1087

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

LONG ESSAY

2 X 10 = 20 Marks

1. Define death. Classify signs of death. Discuss medico-legal importance of each one of them
2. Define hanging and strangulation. Discuss the differences between the two asphyxial deaths

SHORT ESSAY

10 X 5 = 50 Marks

1. How will you estimate the age of a person?
2. Briefly describe exhumation
3. Describe different types of lacerations and their mechanism of production
4. Signs of drowning
5. Describe different causes of rupture of hymen
6. Define and classify abortions. What action will you take when a case of suspected criminal abortion is admitted to your nursing home?
7. Describe the management of a case of poisonous snake bite
8. Name common chelating agents, how do they act. Describe use of any one of them
9. Describe circumstances in which carbon monoxide (CO) poisoning can occur. How will you manage a case of acute CO poisoning?
10. Discuss 'valid consent for medical treatment'

SHORT ANSWERS

10 X 3 = 30 Marks

1. Changes after death
2. Comparison microscopy in cartridges & bullets
3. Fabricated wounds
4. Custodial rape
5. Precipitate labour
6. Voluntary admission to mental hospital
7. Arrow poisons
8. Sites of action of poisons
9. Maceration of foetus
10. State medical councils
