

**FINAL M.B.B.S. DEGREE EXAMINATION  
PART – II**

Revised (Non-Semester) Regulations

**Paper VI – GYNAECOLOGY AND FAMILY WELFARE**

*Q. P. Code : 524086*

**Time : Three hours**

**Maximum: 100 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Essay Questions :**

**(2 x 15 = 30)**

1. What are the causes of Chronic Pelvic Pain?  
Describe the clinical features and diagnosis of pelvic endometriosis.
2. What is the epidemiology of Cervical Cancer.  
How do you diagnose and manage cervical intra epithelial neoplasia?

**II. Write Short notes on :**

**(10 x 5 = 50)**

1. Pre menstrual syndrome.
2. Hydrosalpinx.
3. Post coital test.
4. Subdermal implant – nor plant.
5. Dysgerminoma.
6. Classification of gestational trophoblastic disease.
7. Secretory phase of endometrium.
8. Estrogen replacement therapy: Indications and contra indications.
9. Complications of tubal ligation.
10. Cysto glandular hyperplasia.

**III. Short Answer Questions :**

**(10 x 2 = 20)**

1. CA 125.
2. What are Estrogen free pills.
3. What is cryptomenorrhoea.
4. Toxic shock syndrome.
5. Causes for Retention of urine.
6. Uterine Artery.
7. Clue Cells.
8. Sono Salpingography.
9. Organism which cause pelvic inflammatory disease.
10. Causes of dyspareunia.

**FINAL M.B.B.S. DEGREE EXAMINATION  
PART – II**

Revised (Non-Semester) Regulations

**Paper VI – GYNAECOLOGY AND FAMILY WELFARE**

*Q. P. Code : 524086*

**Time : Three hours**

**Maximum: 100 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Essay Questions :**

**(2 x 15 = 30)**

1. Define DUB.

Discuss the various options available to manage a 35 year old patient with DUB.

2. Enumerate the causes of secondary infertility.

How do you manage the case of secondary infertility?

**II. Write Short notes on :**

**(10 x 5 = 50)**

1. Turner's syndrome.

2. Dermoid cyst.

3. Definition and management of pelvic inflammatory disease.

4. Minilap.

5. Differential Diagnosis of mass per vagina.

6. Diagnosis and management of adenomyosis.

7. Trichomonas vaginalis – Diagnosis and treatment.

8. Hysteroscopy.

9. Advantages of Hormone replacement therapy in Menopause.

10. Anatomy of fallopian tube.

**III. Short Answer Questions :**

**(10 x 2 = 20)**

1. Classification of uterovaginal prolapse.

2. Classification of congestive desmenorrhoea mention two causes.

3. Indication for endometrial Biopsy.

4. Contraindication for IUCD use.

5. Causes of acute retention of urine.

6. Mention ligamental supports of uterus.

7. Prerequisites for myomectomy.

8. Diagnosis of genitourinary FISTULA.

9. Causes of primary amenorrhoea.

10. Complications of vaginal hysterectomy.

*Q. P. Code : 524086*

**Time : Three hours**

**Maximum: 100 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Essay Questions :**

**(2 x 15 = 30)**

1. What are the predisposing factors for carcinoma cervix?  
What are the screening and diagnostic methods for carcinoma cervix?
2. Write the aetiology, clinical features and medical management of endometriosis.

**II. Write Short notes on :**

**(10 x 5 = 50)**

1. Pelvic lymphatic drainage.
2. Dysgerminoma.
3. Causes of post menopausal bleeding.
4. Cryptomenorrhoea.
5. Turner's syndrome.
6. Bacterial vaginosis.
7. Complications of intra uterine contraceptive device.
8. How do you investigate male infertility?
9. What are the methods for first trimester MTP? Write about menstrual regulation.
10. Classification of gestational tropho blastic diseases.

**III. Short Answer Questions :**

**(10 x 2 = 20)**

1. Bartholinitis.
2. Femshield.
3. Post coital contraception.
4. Spasmodic dysmenorrhoea.
5. Metropathia haemorrhagica.
6. Pyometra.
7. Lefortis repair for UV prolapse.
8. Ovarian hyperstimulation syndrome.
9. Corpus luteum.
10. Chronic cervicitis.

**Maximum: 100 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Essay Questions :**

**(2 x 15 = 30)**

1. Define normal menstrual cycle and discuss phases of normal menstrual cycle.
2. Enumerate the causes of male and female infertility.  
Discuss the tests for ovulation.  
Discuss the seminal analysis.

**II. Write Short notes on :**

**(10 x 5 = 50)**

1. Pubic diaphragm.
2. Functional and therapeutic uses of oestrogens.
3. Turners syndrome.
4. Adenomyosis.
5. myomectomy.
6. Bacterial vaginosis.
7. Stages of carcinoma cervix.
8. Tumour markers.
9. Stress incontinence.
10. Copper T 380.

**III. Short Answer Questions :**

**(10 x 2 = 20)**

1. D/D for acute salphingitis.
2. Causes for retention of urine in: **a)** Reproductive women. **b)** Pubertal age.
3. Management of post pill amenorrhoea.
4. Benefits of combined pills contraceptives.
5. Mode of death in carcinoma cervix.
6. Causes of pyometra.
7. Etiology of entometriosis.
8. D/D for post menopausal bleeding.
9. Lymphatic drainage of vulva.
10. Emergency contraception.

*Q. P. Code : 524086*

**Time : Three Hours**

**Maximum: 40 Marks**

Answer **ALL** questions in the same order.  
Draw Suitable diagrams wherever necessary

**I. Elaborate on:**

**(2 x 5 = 10)**

1. Classify genital prolapse.  
Discuss in detail the clinical features, differential diagnosis and management of nulliparous prolapse.
2. What is CIN? Discuss in detail the grades, diagnosis and treatment of CIN.

**II. Write notes on :**

**(10 x 1.5 = 15)**

1. Missed IUCD.
2. Injectable contraception.
3. Granulosa cell tumour.
4. Chemoradiation.
5. Adenomyosis.
6. Hysteroscopy in infertility.
7. PCOD.
8. Dysmenorrhoea.
9. HSG.
10. Senile vaginitis.

**III. Short Answers :**

**(15 x 1 = 15)**

1. Colposcopy.
2. Culdocentesis.
3. Perineal body.
4. Imperforate hymen.
5. Precocious puberty.
6. Turner's syndrome.
7. Bartholin's cyst.
8. Tubercular salpingitis.
9. Rubin's cannula.
10. Second trimester MTP.
11. Pelvic hematocele.
12. Bromocriptine.
13. Chronic cervicitis.
14. Red degeneration.
15. Complications of laparoscopy.

**Time : Three Hours**

**Maximum: 100 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Elaborate on:**

**(2 x 15 = 30)**

1. Classify Ovarian Tumours.

Discuss in detail diagnosis and management of Germ cell tumours.

2. Define Endometriosis.

Discuss the aetiology, pathology, clinical features and management of Endometriosis.

**I. Write notes on:**

**(10 x 5 = 50)**

1. Metropathia haemorrhagica.

2. Cervical intraepithelial Neoplasia.

3. Fothergill's operation.

4. Postcoital test.

5. Medical treatment of Ectopic gestation.

6. Red degeneration.

7. Polycystic ovarian syndrome.

8. Laparoscopy in Gynaecology.

9. Hysterosalpingo gram.

10. Ovarian Pregnancy.

**III. Short Answer on :**

**(10 x 2 = 20)**

1. Danazol.

2. Colpotomy.

3. Basal body temperature.

4. Recto vaginal fistula.

5. Testicular feminizing syndrome.

6. Mini pill.

7. Pyometra.

8. Premature menopause.

9. First trimester Medical termination of pregnancy.

10. Bacterial vaginosis.

**THIRD M.B.B.S. DEGREE EXAMINATION  
PART – II**

**Paper VI – GYNAECOLOGY AND FAMILY WELFARE**

*Q. P. Code : 524086*

**Time : Three Hours**

**Maximum: 40 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Elaborate on:**

**(2 x 7.5 = 15)**

1. What are the main causes of infertility?  
How will you investigate a couple with Primary Infertility?  
Discuss the Management of Anovulation as the cause of Infertility?
2. What are the causes of mass per abdomen in a 45 year old woman. ?  
Discuss the Types of Fibroid, Symptoms, Signs, Diagnosis and Management of Fibroid Uterus.

**II. Write notes on:**

**(10 x 1.5 = 15)**

1. Enterocoele
2. Intra uterine Contraceptive Device – (Mechanism of action, types, Contra indications, Side effects)
3. Menopause( symptoms, Management)
4. Cryptomenorrhoea
5. Indications of Conisation of Cervix
6. Bartholin's Abscess
7. Trichomonas Vaginitis
8. Dermoid Cysts of Ovary
9. Methotrexate
10. Supports of Uterus.

**III. Short Answers on:**

**(10 x 1 = 10)**

1. Causes of Postmenopausal Bleeding
2. Methods of First Trimester MTP
3. Medical Management of Unruptured Ectopic Pregnancy
4. Complications of Vaginal Hysterectomy
5. List main causes of Pruritus Vulva
6. Non Contraceptive beneficial effects of Oral Contraceptive Pill
7. Course of Pelvic Ureter
8. Management of Luteal Phase Defect
9. Clinical features of Adenomyosis
10. Theca leutin cysts of ovary.

**THIRD M.B.B.S. DEGREE EXAMINATION**  
**PART – II**  
**Paper VI – GYNAECOLOGY AND FAMILY WELFARE**  
**Q. P. Code : 524086**

**Time : Three Hours**

**Maximum: 40 Marks**

Answer **ALL** questions.

Draw Suitable diagrams wherever necessary

**I. Elaborate on:**

**(2 x 7.5 = 15)**

- 1) a. What are the Causes of Postmenopausal Bleeding?  
b. What are the Risk factors for development of Carcinoma Cervix?  
c. Discuss histological types, Symptoms, Signs, Staging and Diagnosis of Ca Cervix  
d. Brief on management of Ca Cervix Stage I
  
- 2) a. Define Dysfunctional Uterine Bleeding.  
b. Discuss the Classification, Clinical Evaluation, Diagnosis, Differential Diagnosis and Treatment of Dysfunctional Uterine Bleeding

**II. Write notes on:**

**(10 x 1.5 = 15)**

1. Decubitus Ulcer.
2. LLETZ (Large Loop Excision of Transformation Zone).
3. PCOD (Poly Cystic Ovarian Disease) Diagnosis and Management.
4. Minilap.
5. Follow up of molar pregnancy (post evacuation).
6. Bacterial Vaginosis.
7. Broad Ligament Fibroid.
8. Mirena.
9. Dysgerminoma.
10. Tubal patency tests.

**III. Short Answers on:**

**(10 x 1 = 10)**

1. List four indications for operative hysteroscopy.
2. Precocious Puberty.
3. Prerequisites of Myomectomy.
4. Perineal Body.
5. Emergency contraception.
6. Differential Diagnosis of Mass Descending per Vagina.
7. Causes of Acute Retention of Urine.
8. Complications of operative laparoscopy.
9. Chocolate Cysts of Ovaries.
10. Uterine Artery.
