

APRIL 2001

[KD 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours

Maximum : 100 marks

1. How will you evaluate infertile couple? How will you manage a case of anovulatory infertility? (25)
 2. Describe the methods for early detection of cancer cervix. How will you manage a case of early cancer cervix? (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Puberty menorrhagia
 - (b) Non contraceptive benefits of C.C. pills
 - (c) Testicular feminisation syndrome
 - (d) Medical management of endometriosis
 - (e) Diagnostic hysteroscopy.
-

NOVEMBER 2001

[KE 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours

Maximum : 100 marks

1. Describe the etiology, diagnosis, complications and management of endometriosis. (25)
 2. Describe the etiology, diagnosis and management of Vesico Vaginal fistula. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Hyperprolactinaemia
 - (b) Hormonal contraception
 - (c) Hysteroscopy
 - (d) Enterocoele
 - (e) Epithelial Carcinoma of the Ovary.
-

MARCH 2002

[KG 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours

Maximum : 100 marks

1. Discuss the role of male factor in infertility. (25)
 2. Discuss the diagnosis and recent advances in the management of stress incontinence. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Role of cytology in Gynaecology.
 - (b) Bacterial vaginosis.
 - (c) Colposcopy.
 - (d) Pyometra.
 - (e) Endoscopic sterilisation.
-

SEPTEMBER 2002

[KH 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the aetio-pathogenesis and management of pelvic inflammatory disease. (25)
 2. Discuss the various methods of screening for pelvic malignancies in a woman aged 40 years? (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Diagnostic Laparoscopy
 - (b) Galactorrhoea
 - (c) Torsion of ovarian cyst
 - (d) Post-coital contraception
 - (e) Conservative management of tubal pregnancy.
-

APRIL 2003

[KI 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND
GYNAECOLOGY EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING
FAMILY WELFARE

Time : Three hours

Maximum : 100 marks

1. Mention the uterine causes of infertility and role of hysteroscopy in evaluation and management of infertility. (25)
 2. Discuss in detail the aetiopathology, diagnosis and management of cervical-intra epithelial neoplasia. (25)
 3. Short notes on : (5 × 10 = 50)
 - (a) Fractional curetage
 - (b) Emergency contraception
 - (c) Haematocolpos
 - (d) Management of nulliparous prolapse
 - (e) Treatment of Juxta cervical VVF.
-

OCTOBER 2003

[KJ 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

M.C.Q. must be answered **SEPARATELY** on the
answer sheet provided as per the instructions given on
the first page of the M.C.Q. Booklet.

Answer ALL questions.

Draw suitable diagrams wherever necessary.

Essay :

1. Discuss briefly the aetiology and management of
dyspareunia with a note on its prevention and
prognosis. (15)

2. Mention the advantages and disadvantages of
endoscopic surgery versus conventional surgery. Discuss
the management of endometriosis. (15)

3. Write short notes on : (10 × 5 = 50)

- (1) Chronic inversion
- (2) Hydrosalpinx
- (3) Sexually transmitted disease
- (4) Latest trends in contraception
- (5) Follow-up in a case of vesicular mole
- (6) Tuberculous salpingitis
- (7) Chemotherapy in ovarian tumour
- (8) Safe abortion
- (9) Arcuate uterus
- (10) Nulliparous puerperal

AUGUST 2004

[KL 1505]

Sub. Code : 3005

**DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.**

(New Regulations)

Part II

**Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE**

Time : Three hours Maximum : 100 marks

Theory : Two hours and Theory : 80 marks
 forty minutes

M.C.Q. : Twenty minutes M.C.Q. : 20 marks

Answer ALL questions.

I. Essay Questions : (2 × 15 = 30)

(1) How will you manage a unilateral solid ovarian tumour in an 18 yr old unmarried girl? (15)

(2) Discuss the current concept in the etropathogenesis and management of DUB. (15)

II. Short notes on : (10 × 5 = 50)

- (a) Hormonal contraception.
- (b) Pyometra.
- (c) Luteal phase defect.
- (d) Emergency contraception.
- (e) Conisation operation.
- (f) Vault prolapse.
- (g) Medical management of ectopic pregnancy.
- (h) Methotrexate.
- (i) Bacterial vaginosis.
- (j) Toxic shock syndrome.

FEBRUARY 2005

[KM 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

(New Regulations)

Part II

Paper II — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. Essay Question : (2 × 15 = 30)

(1) Discuss mass in lower abdomen in 20 years old woman. How will you manage germ cell tumour of ovary in such patient? (15)

(2) How will you diagnose and treat a case of genuine stress in-continance? (15)

II. Write short notes on : (10 × 5 = 50)

- (a) Benefits and risks of H.R.T.
- (b) Investigations for male factor infertility.
- (c) Roll of Colposcopy in cervical lesions.
- (d) Injectable contraceptives.
- (e) Emergency contraception.
- (f) Vault prolapse.
- (g) Tumour markers.
- (h) Laser in Gynaecology.
- (i) Cervical fibroid.
- (j) Hysteroscope.

MARCH 2006

[KO 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

GYNAECOLOGY INCLUDING FAMILY WELFARE

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. Write essay on :

(2 × 15 = 30)

(1) A 52 year old post menopausal lady presented with bleeding per vaginum of 3 weeks duration.

How will you evaluate and arrive at a diagnosis?

If the diagnosis is stage II Carcinoma-Endometrium, how will you treat?

(2) A 30 years old lady, married for 4 years presented with inability to conceive is diagnosed to have poly cystic Ovarian Disease. How will you treat?

II. Write short notes on :

(10 × 5 = 50)

(a) Operative hysteroscopy

(b) Tubal reconstructive surgery

(c) Stage I a₁ carcinoma cervix

(d) Progesterone only contraceptive

(e) Azospermia

(f) Nulliparous prolapse

(g) Tension free vaginal tape

(h) Management of acute Pelvic inflammatory disease

(i) Copper T 380 A

(j) Red degeneration fibroid.

SEPTEMBER 2006

[KP 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

Paper III — GYNAECOLOGY INCLUDING FAMILY
WELFARE

Time : Three hours Maximum : 100 marks

Theory : Two hours and Theory : 80 marks
forty minutes

M.C.Q. : Twenty minutes M.C.Q. : 20 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Essay questions :

(1) What are the pre invasive lesions of vulva?
Write in detail regarding the classification (stages) and
management of malignant lesions of vulva.
(20)

(2) What are the different types of assisted
reproductive technologies? How will you manage a case
of unexplained infertility? (15)

(3) Discuss the pathogenesis and management
of endometriosis in a 40 year old woman. (15)

II. Write short notes on : (6 × 5 = 30)

- (a) Microsurgery on tube
 - (b) Hydrosalpinx
 - (c) Chronic inversion
 - (d) Krukenberg's tumour
 - (e) Hirsutism - causes
 - (f) Male contraception.
-

[KQ 1505] MARCH 2007 Sub. Code : 3005

**DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
(D.G.O) EXAMINATION**

GYNAECOLOGY INCLUDING FAMILY WELFARE

Common to

(Candidates admitted from 1993-94 onwards)

and

(Candidates admitted from 2004-05 onwards)

Time : Three hours Maximum : 100 marks

Theory : Two hours and Theory : 80 marks
forty minutes

M.C.Q. : Twenty minutes M.C.Q. : 20 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Essay Questions:

1. Mention advantages and disadvantages of (20)

- (a) Female sterilization
- (b) Male sterilization
- (c) Condoms
- (d) Intrauterine devices
- (e) Oral contraceptives.

2. Describe in detail about HIRSUTISM and VIRILISM. (15)

3. Describe the paediatric gynaecological problems and the role of paediatric surgery in the management. (15)

II. Write short notes on : (6 × 5 = 30)

- (a) Uterine sound
- (b) Conjugated oestrogen
- (c) Fractional curettage
- (d) Staging of cervical cancer
- (e) Features of Adenomyosis in Hysterectomy specimen.
- (f) Role of surgery in pelvic tuberculosis.

MARCH 2008

[KS 1505]

Sub. Code : 3005

DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.

Paper III — GYNAECOLOGY INCLUDING FAMILY WELFARE

(Common to all regulations)

Q.P. Code : 343005

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

- I. Essay Questions : (2 × 20 = 40)
1. Discuss the diagnosis and modern management of Dysfunctional uterine bleeding.
 2. Describe the signs, symptoms, staging and management of Ca.CX stage I-B. How do you prevent it?
- II. Short Notes : (10 × 6 = 60)
1. Medical termination of pregnancy in first trimester.
 2. Role of exfoliative cytology in gynaecology.
 3. Trichomonas vaginalis.
 4. Chemical disinfectants for HIV.
 5. Endometrial ablation.
 6. Vault prolapse.
 7. Interval sterilization.
 8. Paraovarian cyst.
 9. Role of Colposcopy.
 10. Merits and demerits of Depoprovera.
-

September 2008

[KT 1505]

Sub. Code: 3005

**DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.**

Paper III – GYNAECOLOGY INCLUDING FAMILY WELFARE

(Common to all candidates)

Q.P. Code : 343005

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions :

(2 X 20 = 40)

1. What are the differences between benign and malignant ovarian tumours in their clinical presentation, management and prognosis.
2. Evaluate asymptomatic case of midline swelling up to umbilicus in a 50 years old woman.

II. Write short notes on :

(10 X 6 = 60)

1. Role of EB (Endometrial Biopsy) in present day gynaecology.
 2. Non contraceptive benefits of hormone releasing Intrauterine contraceptive device. (IUCD).
 3. Medical management of ectopic pregnancy.
 4. Only progestogen pills.
 5. Family planning choice in HIV+ve woman.
 6. Down staging of cancer cervix
 7. Follow up of vesicular mole.
 8. Post coital test
 9. Hormone replacement therapy (HRT).
 10. Semen analysis-WHO Norms.
-

MARCH -2009

[KU 1505]

Sub. Code: 3005

**DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.**

**Paper III – GYNAECOLOGY INCLUDING FAMILY WELFARE
(Common to all candidates)**

Q.P. Code : 343005

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions : (2 X 20 = 40)

1. Write about newer contraceptives.
2. Management of postmenopausal bleeding.

II. Write short notes on : (10 X 6 = 60)

1. Saline sonohysterography.
2. Role of pap smear in cancer cervix screening.
3. Tumour markers.
4. Bacterial vaginosis.
5. Evaluation of secondary Amenorrhoea.
6. Missed abortion.
7. Cervical polyp.
8. Scar endometriosis.
9. POP – classification of prolapse.
10. Management of Fibroadenoma breast.

September - 2009

[KV 1505]

Sub. Code: 3005

**DIPLOMA IN OBSTETRICS AND GYNAECOLOGY
EXAMINATION.**

Paper III – GYNAECOLOGY INCLUDING FAMILY WELFARE

(Common to all candidates)

Q.P. Code : 343005

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions : (2 X 20 = 40)

1. Discuss the pathogenesis and management of endometriosis in a 40 yr old woman.
2. Discuss about the differences between benign and malignant ovarian tumors in their clinical presentation, management and prognosis.

II. Write short notes on : (10 X 6 = 60)

1. Uterine polyps and their management.
2. Prognostic factors for endometrial carcinoma.
3. Down staging of Ca Cx.
4. Anatomy and management of stress incontinence in female.
5. Management of missing Cu-T threads.
6. Role of radio therapy in Ca. ovary.
7. Prolactinomas.
8. Treatment of ureteric fistula as a result of hysterectomy.
9. HRT in menopause.
10. Post coital test.
